# Cloud Connect

Migrate. **Integrate.** Manage. **Optimize.** Protect. Report.

Integrate. Optimize. Grant your employees the freedom to choose how they want to work by integrating your existing Microsoft® SharePoint® Server and Box® collaboration platforms.

Key Benefits

- Maximize the value of two existing IT catalog offerings by making all enterprise content accessible across platforms, breaking down the data silos that exist in every organization

- Using Box, your users can enable secure mobile collaboration, share information directly with customers, collaborate with partners, and integrate other SaaS applications in your enterprise

- Using SharePoint, your users can simplify content management by utilizing robust document management features – including workflow, approval, versioning and full-text search, eDiscovery, and integration with Office Web Apps

- Leverage the benefits of cloud for your on-premises infrastructure by reducing storage costs, maintenance burdens, as well as improving data availability and failover times

Two Platforms. Seamless Integration. Collaboration at its Best.

A true integration, DocAve Cloud Connect allows your users to work the way they work best, embracing Box's mobile and secure sharing platform, with the strong Enterprise Content Management (ECM) functionalities of SharePoint.

Without the risks and complexities of content replication or duplication, Cloud Connect combines the benefits of cloud computing with your existing on-premises infrastructure, improves collaboration for your employees, and extends the capabilities of each platform.
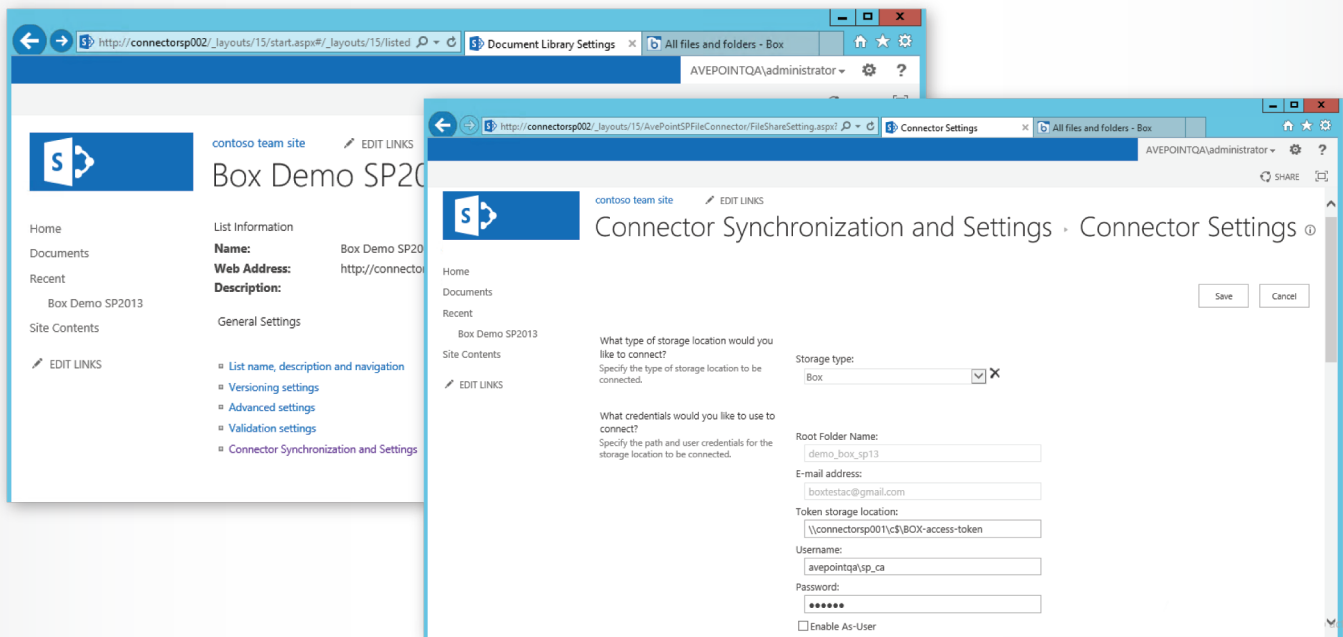

Technical Overview

- Without content duplication, two-way integration between SharePoint libraries and Box folders ensures that the latest content is always consistent and presented on both sides

- Automatically synchronize all SharePoint changes and modifications to Box folders

- Manual or scheduled synchronization of Box changes and modifications to SharePoint libraries

- Access and collaborate on SharePoint content with all of Box's

- Manage Box content with all of SharePoint's document management and collaboration features including security settings, permissions, and standard and customized metadata fields

- Utilize SharePoint's native full-text search functionality, as well as Microsoft® Office applications or third-party tools, to present and manage connected content as if it resides in SQL Server content databases

- Stream audio and video files directly to the browser via a dedicated media library that caches files through the Content Distribution Network for fast, intelligent delivery

- Easily report on, inventory, view, and manage connected Box accounts using a centralized management console and dashboard for quick insight into connected content across SharePoint farms

Access your Box and SharePoint content from either platform through a seamless connection.

As with all AvePoint products, DocAve Cloud Connect utilizes only fully supported Microsoft methodologies and APIs.

How to Buy DocAve

AvePoint Public Sector

E-mail: Salesgov@AvePoint.com
Corporate Office: 201.793.1111
