

AI Adventure

Everyday AI + Data Security Is A Journey, Not A Destination

As we embrace the power of AI to transform our businesses, we must also recognize that safeguarding our data is an ongoing journey, not a final destination. Join us as we chart a course through the exciting possibilities of AI and critical responsibilities of data security.

● Charting the unknown - guest speaker

As we navigate the uncharted waters of AI development, the future promises both exciting possibilities and complex challenges. We welcome our guest speaker who is no stranger to adventures; the first person to row the Atlantic, summit Everest, and cycle around the world, an achievement dubbed "The Ultimate Triathlon."

● Setting Sail: The Beginning of the AI Journey

As we embark on the AI journey, it's essential to understand that this path is not a destination but a continuous voyage of discovery and growth. We welcome some AvePoint customers on stage to share their AI adventure, lessons learnt and experiences

customer panel to be revealed

● Navigating Rough Waters: Overcoming AI Challenges

In this session we will "cook off" two powerful solutions—SharePoint Advanced Management (SAM) and the AvePoint Confidence Platform—to see which delivers the tastiest blend of remediation strategies, governance capabilities, and AI-readiness features. Using a fun, culinary-inspired format, you'll get an inside look at how each platform approaches M365 Copilot readiness today and sustains success well into the future.

● Discovering new horizons: Agentic AI: The Rise of Autonomous Collaborators

"Agentic AI represents a significant leap forward in artificial intelligence. By 2028, it's projected that agentic AI will facilitate 15% of daily autonomous decisions. It also poses unique challenges for existing AI governance. As AI systems become more autonomous in problem-solving and decision-making, let's discuss Agentic AI And what governance issues could lie ahead"

● AI on the Horizon: Quick wins, Benchmarking progress & impact

Join us for "AI on the Horizon: Quick Wins, Benchmarking Progress & Impact" featuring AvePoint's tyGraph. Discover how to accelerate AI adoption with quick wins and leverage industry-first benchmarking capabilities to compare your organization's AI usage against peers. Learn to maximize the value of Microsoft 365 Copilot through predictive analytics, identifying AI champions, and crafting tailored strategies for sustainable AI transformation

● Final Closing Note: Everyday AI + Data Security is a journey, not a destination

Securing your AI journey is not a one-time fix, it's a continuous commitment. The cyber landscape is ever-evolving, and the data security challenges presented by AI are only going to become more complex. Maintaining peak security requires ongoing vigilance, continuous monitoring, and adaptive governance.

● Happy hour in the Sabin Speakesy - located in the hotel

Secure your spot today and be part of shaping a safer, AI-enhanced digital future!
